

VISUAL COMFORT & CO.

STUDIO COLLECTION

VISUAL COMFORT & CO.

Our story has always been about the power of lighting to illuminate, to cast light on both the physical & artistic qualities of a space. Great lighting is additive. It's about brilliance—design & creativity, craft & technology, style & value. We combine innovation & tradition, creators & makers, & all the layers of light that add up to functional & beautiful spaces. We are committed to offering every form of lighting for every type of environment to create a complete experience of Visual Comfort. This is our purpose, as we constantly work to provide a full spectrum of designer lighting to fit all our customers' needs.

STUDIO COLLECTION

Our Studio Collection draws on the techniques & materials for which we are best known to create great lighting at popular prices. We believe design & quality should be available for every budget, serving all settings from first homes to secondary & investment properties, large-scale contract & hospitality projects to small utility spaces. This collection makes it possible to extend a favored aesthetic into new environments. The key is our iconic roster of design partners, who envision products of extraordinary value across a complete range of indoor & outdoor applications—all attainable expressions of celebrated styles.

DESIGN

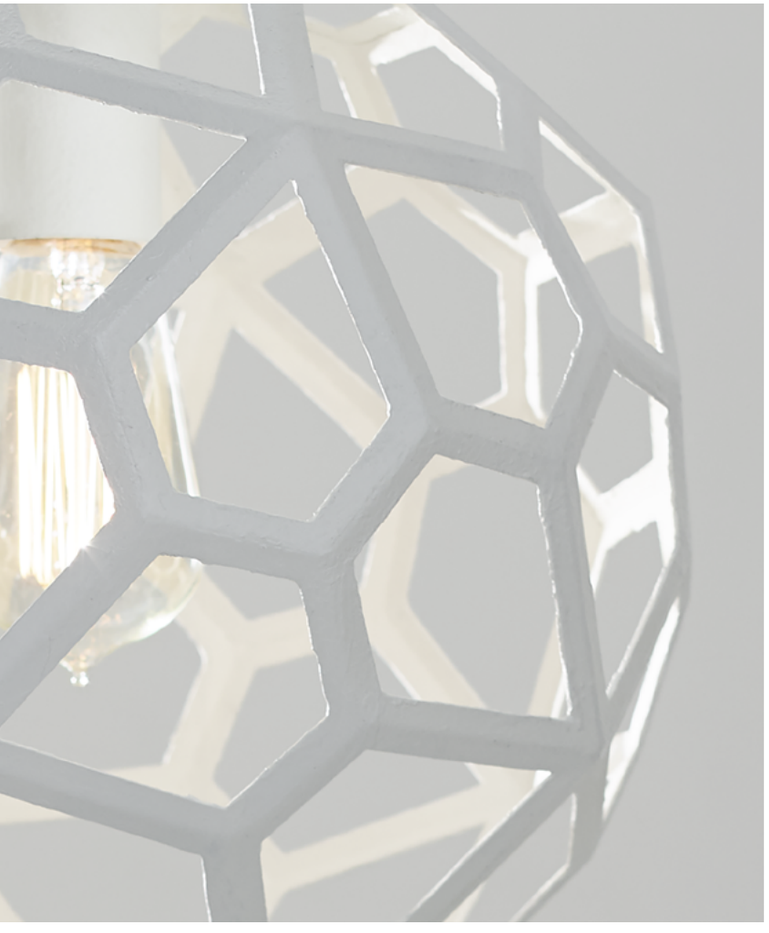

CREATIVITY

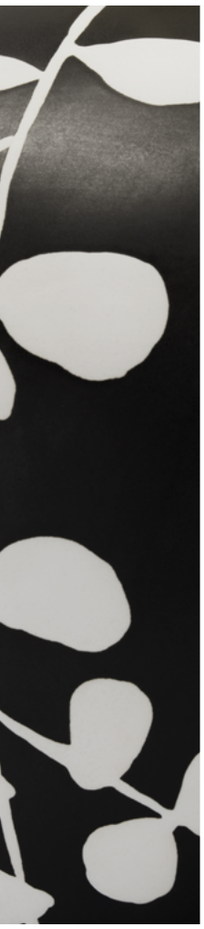

Creativity is the foundation of any product we make as a design company. For our Studio Collection, that means applying an expert creative edit to our design, sourcing, & manufacturing to deliver lighting that is more affordable for more customers.

We're inspired to produce this level of lighting without sacrificing style or selection. We work tirelessly to make every piece look extraordinary while carefully adapting design details & materials. Our job is complete only when the differences are imperceptible.

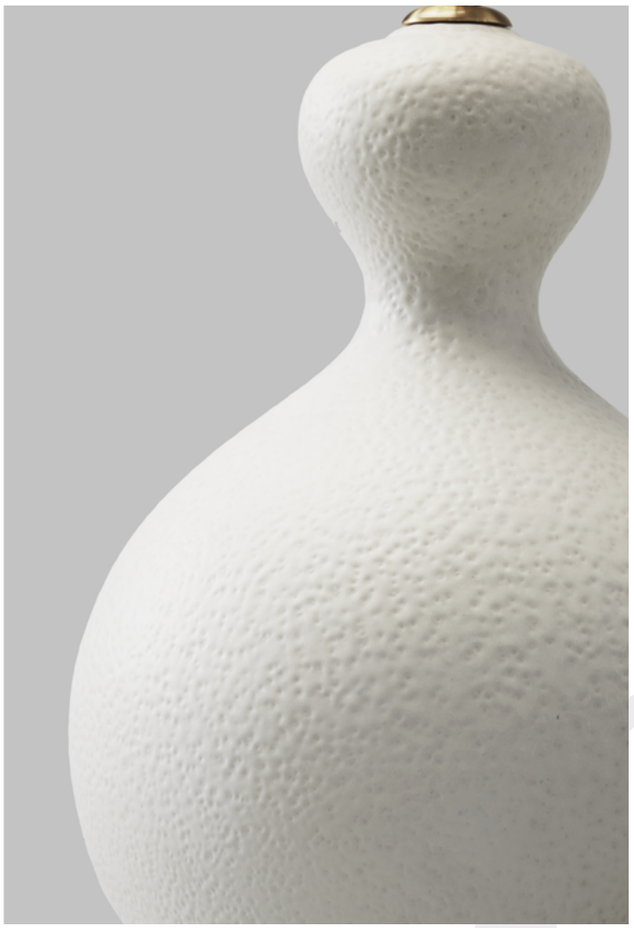

COLLABORATION

We are proud to create our Studio Collection in collaboration with members of our extended family of lighting designers. Each one translates their unique style, passion for form, & eye for detail into products that bring their design point of view to life for a broader range of budgets & projects.

AERIN

Classic, but always with a modern point of view, every piece of the AERIN lighting is created to make a space more beautiful, with a sense of ease & refinement. With a passion for art, travel, fashion & design, founder, Aerin Lauder's own lifestyle serves as a focal point of inspiration for the collection.

ALEXA HAMPTON

Designer Alexa Hampton is admired for her updated neoclassical approach; yet, with generous silhouettes & ravishing detail, her work never appears conservative. She brings her clean formalist perspective to high-style lighting, featuring architectural scale & bold patternwork resulting in design-rich solutions for every space.

CHAPMAN & MYERS

Together, E.F. Chapman & Kyle Myers have founded Chapman & Myers. Chapman designs principally within a classical idiom of fundamental principles, while Myers brings a more modern orientation & sensibility to their partnership. As a result, their collection of lighting provides a breadth of expression encompassing traditional, modern, & transitional aesthetics for any space.

CHRISTIANE LEMIEUX

Christiane Lemieux introduces lighting to support the organic evolution of interiors. This collection is sculptural yet functional – a calling card of sorts for Lemieux, who considers herself to be a "layered minimalist" as well as a design historian. Lemieux taps into constant inspiration from museums, archives, famed interiors, auction houses and more. The result is a collection that speaks fluent "design icon" married with real-life interpretations of what works best in today's modern home.

DREW & JONATHAN

Through their lighting collection, Drew & Jonathan Scott express the sense of home they have felt through every step of their journey—a reflection of their experiences, designed for yours. Their modern home furnishings & décor represent the guiding principles in all their work: Quality craftsmanship, inspirational design, & a desire to improve your everyday life.
With casual & refined styles that seamlessly fit into your home, you can focus on what matters most: making memories of your own.

ELLEN DEGENERES

The Ellen DeGeneres lighting collection reflects Ellen's passion for interior design & appreciation for relaxed mid-century & rustic modern designs.
The products are influenced by some of her favorite, world-renowned artists & feature signature details that are inspired by Ellen's own treasured pieces throughout her homes.

HABLE

Sisters Susan & Katharine Hable produce fabric & furniture lines, home décor & fine art, with representation in interior design showrooms worldwide. Hand-drawn patterns have become the hallmark of the Hable aesthetic, & are reflected in their lighting collection featuring bold, graphic designs for a fresh, contemporary style.

kate spade
NEW YORK

KATE SPADE NEW YORK

Her rooms are mix-&-match affairs of hand-curated pieces from travels near & far. Behind every door, color & humor abound—as do fresh flowers, (almost) always. Her motto: buy what you love & you'll never go wrong. The lighting collection from kate spade new york exudes thoughtful details, adding a layer of polished ease to any space.

KELLY WEARSTLER

Kelly Wearstler's eponymous global luxury lifestyle brand is renowned for its distinctive designs & signature soulful vibe pioneered by the celebrated interior designer. Her expansive lighting collection is an exploration of materiality, color, forms, & an intuitive juxtaposition of contemporary & vintage, architectural & organic, graphic & instinctual, adding an expressive narrative into every space.

LAUREN RALPH LAUREN

Lauren Home is defined by timeless designs updated with a fresh, modern spirit. From tailored sconces to contemporary chandeliers, this sophisticated lighting collection is crafted in the finest materials with inspired finishes & detailing to create a refined foundation for modern living. Experience the premium quality & craftsmanship of Lauren Home.

SEAN LAVIN

Known for his sophisticated, modern designs combined with the latest advancements in lighting technology & expert craftsmanship, multiple lighting design award winner Sean Lavin finds inspiration in experiencing new environments, cultures, architecture & fashion. He believes lighting is just as powerful as other major design elements to create a specific style & mood in a space.

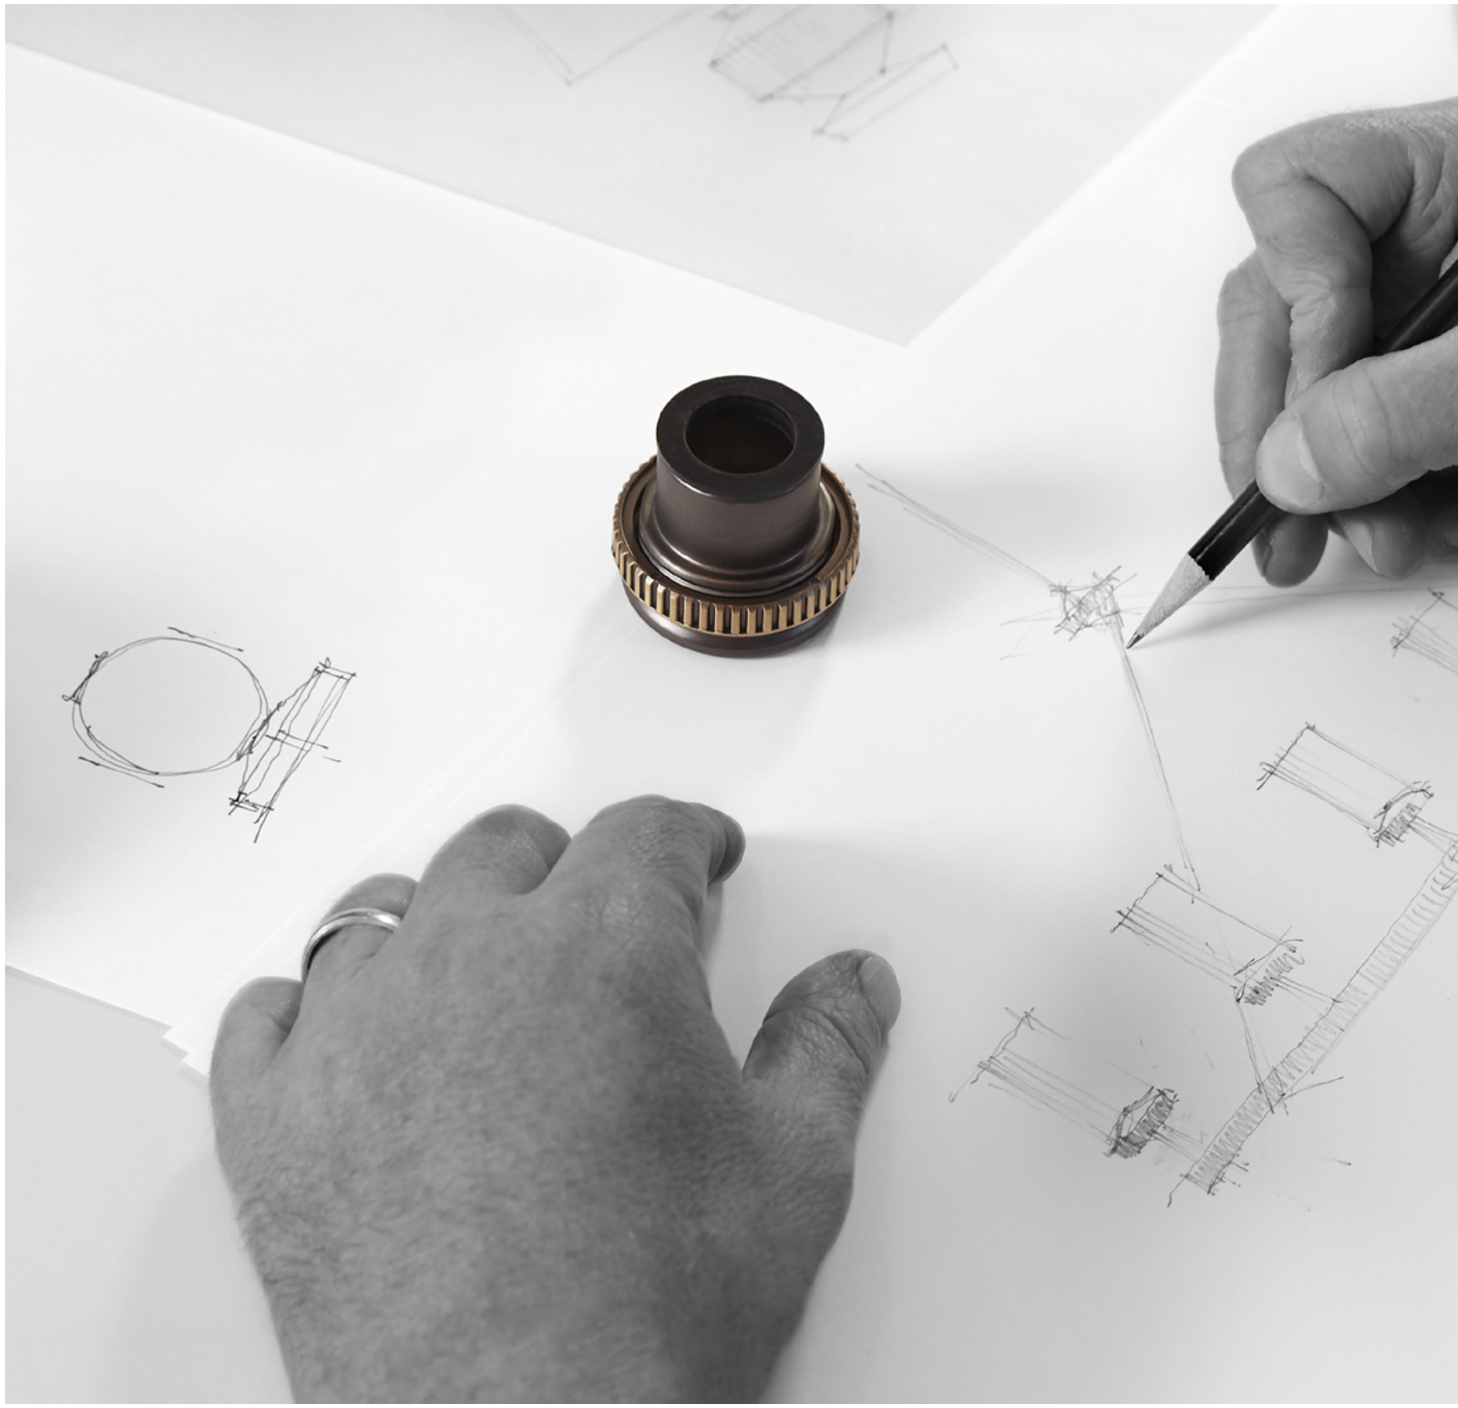

THOM FILICIA

Thom Filicia is known for effortlessly blending classic forms with a modern sensibility to create products & interiors that are both timely & timeless. Influenced by the worlds of architecture, art, travel & lifestyle, the Thom Filicia Home Collection of lighting features a balanced & inspired combination of sculpted, elegant & thoughtfully designed details with a strong & sophisticated mix of materials. The resulting collection is one that feels both timeless & classic yet sexy & sculptural. Each piece helping to illuminate your unique story & point of view.

THOMAS O'BRIEN

Designer & merchant Thomas O'Brien is a master at bridging traditional & modern styles, in his interiors, his New York store, Aero, & his influential collections of home furnishings. His iconic lighting interprets the full spectrum of antique to modern industrial designs in both luxurious & innovative ways.

CRAFTSMANSHIP

MANUFACTURING

We bring decades of experience in manufacturing to lighting that will have the best possible form & function at every price. Because we make every part of every product, utilizing proprietary techniques & resources at scale, we can create lights that look wonderful & perform beyond expectations.

MATERIALS

We celebrate a wide range of natural materials & honest finishes across our collections, giving each product great design versatility, & our customers, greater choice.

CRAFT

We find simple & innovative ways to bring craft into everything we make, adding character through techniques from sculpting & gilding to die-cutting, forging, & casting.

DETAIL

In all of our lighting, it's the small things that make a big difference. A design idea can start with one detail, shape or technique, that becomes the identity of an entire design family.

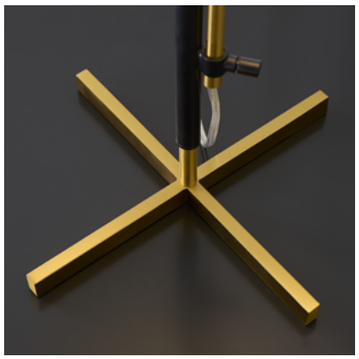

FUNCTION

Every lamp, fixture & shade we make is designed to deliver the proper layer of light in a space. Function & reliability are central to the value we promise our customers.

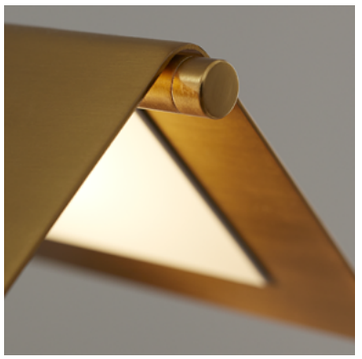

TECHNOLOGY

Our Studio Collection focuses on modern lighting mechanisms & methods to create a range of products that work seamlessly with today's design priorities. Smart, programmable, & energy efficient, these features (when applicable) make all our lights work better.

FEATURES

Some great design features are time-honored & simple in structure. Creative bases, adjustable heights, & articulated armatures add function & personalization to task lights.

ILLUMINATION

The breadth of traditional to LED light sources has never been greater. This repertory allows us to design to a fuller spectrum, offering choices in color, brightness, presentation, & style.

CONTROL

We build personal preference into our lighting with classic to discreet switches & cords in varied finishes, sleek, ergonomic dimming controls, & smart apps for programming.

CREATIVE HOME
THE KINFOLK HOME

STYLE

SELECTION

Our Studio Collection philosophy is centered on providing a comprehensive selection—every type of light, in every style, from a wide array of versatile designers in our Visual Comfort family. We insist on this variety so that our customers have as much choice as at any other level of our brand.

VARIETY

We deliver more design options. Several products may share one unique motif or special technique. A sculptural profile can be used thematically in different ways for a variety of table & floor lamps. Color & finish choices change everything.

We offer beautifully detailed, functional products for all the places & spaces where good lighting can add to a design experience. Explore this selection for a single lamp, layers of light in a room, or a consistent lighting system for any size program or project.

APPLICATION

We've always been known for the range of products we offer in every application. The Studio Collection follows this heritage, with lamps, sconces, & fixtures for all settings—bedroom to bath to living spaces.

We use all our expertise to respond to the technical requirements for unique environments, such as wet rooms, kitchens, & workspaces, through appropriate construction, detailing, & materials.

VALUE

All-around value is the promise we make to our customers. It's the exceptional level of design & product quality we can deliver for every budget. It's about providing a full spectrum of lighting from one source so anyone can find all the pieces they're looking for. It's about the sum becoming greater than the parts.

INSIDE

Our products are thoroughly considered both inside & out. These valuable choices include designs that are specifically tailored to a given application, or you can make your own creative match.

OUTSIDE

As indoor-outdoor living becomes more widespread, we've been inspired to increase both the products & compatible design approaches for this integral addition to many projects.

STONESTRONG

Designed for Beauty, Engineered for the Elements

With outdoor lighting fixtures made with StoneStrong composite, you now get the best of both worlds: the versatility and style you've come to expect from Visual Comfort Studio Collection, coupled with the rugged, no-nonsense durability of this remarkable proprietary material.

StoneStrong composite is especially well-suited for harsh climates where prolonged exposure to salty air, rain, sun, snow and humidity—even debris and pollutants—is the rule, not the exception.

BENEFITS

- Rustproof
- 5-Year Warranty
- Resists Corrosion, Fading, Fire, Acids and Alkali
- Twice the Strength of Resin
- Withstands Temperatures Ranging from -20º F up to 120º F
- Eco-Friendly—Complies with Restriction of Hazardous Substances (RoHS)
- Maintains Fine Design Details and Textures
- Coastal Region Approved
